University of Utah Project ECHO
Nursing Home COVID-19 Action Network

In partnership with the Agency for Healthcare Research and Quality (AHRQ), the ECHO Institute, the Institute for Healthcare Improvement, the University of Utah Project ECHO team will provide training, mentorship, and support to nursing home staff on infection prevention and control to nursing homes across the state of Utah and the western region. Nursing Homes will be compensated for their participation in this 16 week program. Each participating facility will need to have two participating staff members join each week.

This education series has the following goals:

- Preventing COVID-19 from entering nursing homes via staff, visitors, and patients.
- Should the virus enter the nursing home, preventing greater spread among patients, staff, and visitors.
- Protecting staff from infection and ensuring best-practice safety measures.
- Helping staff build confidence in their work, feel safe from infection, and support staff retention.
- Ensuring that patients who are dying from COVID-19 can safely receive visitors.

Make-up Sessions available. It’s no too late to join

Please email sarah.day@hsct.utah.edu to sign up

CMS Qualifying nursing homes will be compensated $6000 for participating in this ECHO series

Data Usage Notification

In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at project.echo@hsc.utah.edu with any questions or concerns.
