Topics include:
- Chronic Heart Failure
- Heart-kidney "marriage therapy"
- Hypertrophic cardiomyopathy
- Pulmonary Hypertension

[More info]
We are pleased to announce the launch of

**Endocrinology ECHO**

**January 2021**

The Endocrine Care ECHO group connects endocrinology specialists to primary care providers in both rural and urban areas. This program, using teleconferencing technologies, will facilitate education of all clinicians in best practices of diabetes management and care of other endocrine diseases. It will feature live, interactive seminars focusing on evidence-based disease management. Non-specialist clinicians will be able to present cases and receive feedback in real time directly from endocrinology specialists.

A total of 12 ECHOs in 2021 will focus on various topics in Endocrinology with the end goal to improve patient care in rural and urban areas where direct access to endocrinology specialists is not available.

The Endocrinology ECHO website is under development. Check here to access the Endocrinology website when it goes live in the coming weeks. [https://physicians.utah.edu/echo/](https://physicians.utah.edu/echo/)

**Behavioral Health:**
- **December 3:** Somatic Symptom Disorder, Tom Gethin-Jones, MD
- **December 10:** Illness Anxiety Disorder, Gabe Fettee, MD
- **December 17:** Factitious Disorder, Troy Hoff, DO

**COVID-19:**

On Break until January 2021

We hope you stay safe and healthy. Wishing you Happy Holidays! Our wish is to have people wear their masks!

We are happy to announce that a broader Dermatology ECHO series is in the process of being put together. This will be a valuable resource for Primary Care Providers across the Mountain West. Check back for more details.

### Data Usage Notification
In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at [project.echo@hsc.utah.edu](mailto:project.echo@hsc.utah.edu) with any questions or concerns.
