Physician Speaker Series

Join us for two specialty education events during July. These specialists will teach care providers how to treat specialty health issues. Attend online, and earn CME credit.

July 16:

Sort Tissue Reconstruction of the Extremity

Dr. Jay Agarwal will educate providers on treatment options for patients with traumatic upper and lower extremity injuries, wounds, and functional deficits. More details.

July 25:

Clinical Pearls in Thyroid Disorders

Join Dr. Dev Abraham for a discussion on how busy clinicians can treat thyroid disorders and make practical decisions. More details.

Clinic Flow Coaching

Starting in September, Value Engineers from University of Utah Health will teach a six-session course designed to help clinic management improve outcomes and accomplish more with every patient encounter. Participants will gain the knowledge and skills they need to standardize their practice, improve clinical relationships, and allow providers to practice at the top of their license. Read more.

University of Utah Health has launched a new and improved Partner Portal. This website has an abundance of features that will benefit your practice, including clinical education, telehealth resources, professional development, upcoming events, and more.

Partners of University of Utah Health are invited to access this site and explore the many resources that are available. First time users will need to request an account.

To access this site, just visit affiliate.uofuhealth.org.

**Commitment to Value:**

**What We Talk About When We Talk About Efficiency**

On July 10, join Steve Johnson, Value Engineering Director at University of Utah Health, for a presentation on creating process efficiency in the healthcare setting.

This session will be held by Zoom video conferencing. Join from the convenience of your laptop or mobile device.

To register for this event, send an email to sarah.day@hsc.utah.edu. **NOTE:** this event is exclusively for University of Utah Health affiliates.

**Stroke Tracer Educational Offering**

Join us on July 10th for this educational offering, in which we discuss each phase of care for a stroke patient, with best practices from multiple disciplines (ED, IR, ICU, acute care, rehab, pharmacy).

This offering is open to any affiliate online and will be broadcast live using Zoom video conferencing. Simply go to the Zoom link provided.

In addition to being available online, we have been six seats available for affiliate providers wishing to attend in-person. 3.5 Nursing CE's are available for those attending in-person.
To register, email samantha.ballieu@hsc.utah.edu.
