PALLIATIVE CARE EDUCATION SERIES FOR PRIMARY CARE PROVIDERS

Join the specialists at University of Utah Health for this five-part series on palliative and hospice care.

This series will cover subjects including emotional support for patients and families, common misconceptions about Hospice and end of life care, and strategies to mitigate distress, and uncertainty.

LEADERSHIP TRAINING FOR HEALTH CARE PROFESSIONALS

Managing vs Leading is the second course in the iLEAD series, designed to teach leadership skills to those who manage clinical and nursing staff. For the last several years, managers at University of Utah Health have increased their leadership skills by attending these courses.

iLEAD courses are now available to affiliate hospitals and clinics. This course discusses how to establish influence by identifying the difference between managing and leading. Inspire effort, build confidence in success, model and lead through vision and values. If you missed the course on Employee Engagement, there is still time to sign up.

OKTOBERFEST CARDIOVASCULAR LECTURE SERIES

First Event:
September 28, Noon
Register on Zoom

Each Wednesday in October, cardiovascular specialists from University of Utah Health will teach primary care providers about the diagnosis and treatment of specialty diseases.

Watch this space next month for topics and presenters.

> More info

UTAH REGIONAL STROKE AND NEURO REHAB CONFERENCE

Stroke remains one of the greatest causes of major disability in the Intermountain region, and coordination and delivery of expert stroke care remains a top priority.

This event will discuss the most current evidence-based practice and emerging concepts in the stroke continuum of care, and address the most critical issues in acute stroke intervention and rehabilitation.

> More info
UTAH TRAUMA NETWORK CONFERENCE

This two-day event includes experience filled presentations on a variety of trauma related topics that impact each of us in our professional and personal lives day to day. We invite all health care providers in the state of Utah to join us this year for the 18th Annual Utah Trauma Network Virtual Conference.

September 16th 12:30 - 4:45 pm & September 17th 8 am - 12:15 pm

> Register Now

SHORT-ARM CAST APPLICATION

The Short-Arm Cast is one of the most common upper extremity casts that are put on patients for upper extremity injuries.

The Orthopaedic Center at University of Utah Health has provided this tutorial in an effort to promote a uniform approach to casting, to optimize outcomes for patients.

> Watch the video

LUNG TRANSPLANTATION AT THE “U” WHEN, WHO AND HOW

Dr. Matthew Morrell, Medical Director of the Lung Transplant Program, will discuss lung transplantation as a treatment option for patients with end stage lung disease, and when to consider this option for your patients.

INJURY PREVENTION LEARNING SERIES

Our Injury Prevention Learning Series strives to create an interactive virtual learning environment for our community, partners and healthcare personnel. Our focus is to provide injury prevention methods for varying high incidence mechanisms in our area as they relate to activity and season changes.

September 7: Pedestrian Safety

September 21: Fall Prevention

12 LEAD ECG CLASS — VIRTUAL

This course teaches participants how to identify acute myocardial infarction by location and a new bundle branch block, differentiating between stable and unstable angina, and identifying ACS treatment guidelines. 12 Lead ECG interpretation. Must have some baseline ECG knowledge.

> Register here
**TRAUMA GRAND ROUNDS**

Trauma Grand Rounds is based around up to date, evidence-based hospital interventions.

This month's topic is Orthopedic Trauma Management, with Thomas Higgins, MD.

**September 16th, 7 AM**

New ECHO Alert: Family Planning ECHO Series
2nd Wednesday of Every Month, 7:30am - 8:30am

How do I help my patient select the right birth control pill? What pain management options exist for IUD placement? Can the hormonal IUD really be used as emergency contraception? You’ve got questions; and the Division of Family Planning at the University of Utah has answers! Join us the second Wednesday of each month to connect with local experts in family planning, discuss clinical cases, and share best practices for providing comprehensive person-centered family planning care to patients. Stay tuned for registration and case submission links.

Save the date: Wednesday, September 8th, 7:30am – 8:30am
Family Planning ECHO: An Update on Emergency Contraception with David Turok, MD, MPH
This session will identify important considerations for selecting an oral EC method, review new data on efficacy of the hormonal IUD for emergency contraception, and explore emerging evidence on initiating an IUD at any time with a negative urine pregnancy test.

**Data Usage Notification**
In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at [project.echo@hsc.utah.edu](mailto:project.echo@hsc.utah.edu) with any questions or concerns.
