EVIDENCE-BASED TRAINING ON CONTRACEPTIVE CARE

Family Planning Elevated, a statewide contraceptive initiative housed within the Division of Family Planning at the University of Utah, is hosting a training on Expanding Reproductive Autonomy and Contraceptive Access.

The free, one-day training is open to all clinicians and clinic staff. Attendees will learn contraceptive counseling best practices, IUD insertion and removal skills, and updates on the range of available methods.

August 6th
9 am – 2 pm

New ECHO Alert: Coming Soon
Family Planning ECHO Series
2nd Wednesday of Every Month, 7:30am - 8:30am

How do I help my patient select the right birth control pill? What pain management options exist for IUD placement? Can the hormonal IUD really be used as emergency contraception? You’ve got questions; and the Division of Family Planning at the University of Utah has answers! Join us the second Wednesday of each month to connect with local experts in family planning, discuss clinical cases, and share best practices for providing comprehensive person-centered family planning care to patients. Stay tuned for registration and case submission links.

Save the date:
Wednesday, September 8th, 7:30am – 8:30am
Family Planning ECHO: An Update on Emergency Contraception with David Turok, MD, MPH
This session will identify important considerations for selecting an oral EC method, review new data on efficacy of the hormonal IUD for emergency contraception, and explore emerging evidence on initiating an IUD at any time with a negative urine pregnancy test.

Pediatrics ECHO returns:
The Pediatrics ECHO returns on August 11 noon-1pm. During the fall, we will partner with experts at Project SCOPE (Supporting Children of the Opioid Epidemic). This is a national training initiative intended to build nationwide provider capacity and confidence to support children and families diagnosed with Neonatal Abstinence Syndrome (NAS), Neonatal Opioid Withdrawal Syndrome (NOWS), or who are suspected of being impacted by opioid use, trauma, or related exposure.

Additional specialty topics, presented by University of Utah Health providers, will be added to the schedule shortly.

To register, and for more details, visit the Pediatrics ECHO web page.
**Behavioral Health:**
Behavioral Health ECHO is on summer break and will return Fall 2021. Thank you for participating in our sessions! We greatly appreciate your support of this important program. We hope you have a good summer break. Stay safe and healthy!

Data Usage Notification

In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at project.echo@hsc.utah.edu with any questions or concerns.
