SPRING INJURY PREVENTION LEARNING PROGRAM

Health care and community experts are coming together to share their expertise and experience in injury and injury prevention to help everyone safely navigate spring activities.
The purpose of the program is to offer an interactive virtual learning environment for the community, community partners, and health care personnel. Our focus is on prevention methods for varying high incidence injuries that occur in our area as they relate to activity and season changes.

LEADERSHIP TRAINING FOR HEALTH CARE PROFESSIONALS

A new series is designed to teach leadership skills to those who manage clinical and nursing staff. For the last several years, managers at University of Utah Health have increased their leadership skills by attending iLEAD courses. These courses will now be made available to affiliate hospitals and clinics.

The first topic in this series is Employee Engagement. Watch this space in the coming months for information on additional courses, including Leadership vs Management.

These courses can be taught to groups of 6-12 people. To schedule for your clinic, contact education@hsc.utah.edu.

TRANSGENDER HEALTH EDUCATION

Thank you to the nearly 200 participants who responded to a survey on the need for transgender health education.

University of Utah Health and the AIDS Education and Training Center are now planning education events to be held in 2021.

Sign up now to be notified of future events in transgender health education.

> More info

RESILIENCY FOR HEALTH CARE PROFESSIONALS

Join us for the last session of the resiliency series, covering topics on the impact of trauma on front-line caregivers, the creation of professional boundaries with family and patients, communicating with families, patients and each other during COVID-19 and developing self care strategies in and around the workplace.

**Substance Abuse Podcast with ECHO Alumna Dr. Paula Cook**

Paula Cook, MD and Darlene Petersen, MD have started a new addiction medicine podcast. The podcast is geared towards primary care, specialty or auxiliary health professionals who interact with people with substance use disorders. They have several more episodes ready to release and are excited to continue to cover many topics with invited guests.

---

**Data Usage Notification**
In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at project.echo@hsc.utah.edu with any questions or concerns.
