Data Usage Notification
In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at project.echo@hsc.utah.edu with any questions or concerns.
