### Behavioral Health:
Held weekly on Tuesdays from noon – 1pm.

Thank you for your past participation in our Behavioral Health ECHO. The past few years we have had great presentations from many experts on important Behavioral Health topics. This upcoming year we will be changing our Behavioral Health ECHO programming and schedule. We will be moving Behavioral Health ECHO from Noon on Thursdays, to Noon on Tuesdays. This year I invite all the participants to join us for this opportunity in case-based learning for CME. In the past, we have had modules on topics of mental health and opportunity for participants to present cases and ask questions. With this refresh of this year’s program, you will continue to learn about behavioral health topics, but it will be case-based instead of didactic based. It will introduce you to Mental Health Integration model for primary care and specialty clinics which expands mental health care to areas in the intermountain west which is not easily accessible. It provides psychiatric consultation and education/recommendations from psychiatrists to primary care providers.

For questions please reach out to Sarah Day, sarah.day@hsc.utah.edu

# Data Usage Notification

In order to support the growth of the ECHO movement, Project ECHO® collects participation data for each ECHO program. This data allows Project ECHO to measure, analyze, and report on the movement’s reach. It is used in reports, on maps and visualizations, for research, for communications and surveys, for data quality assurance activities, and for decision-making related to new initiatives. Please contact us at [project.echo@hsc.utah.edu](mailto:project.echo@hsc.utah.edu) with any questions or concerns.
